EKS PROFINET

You will require the corresponding GSD file in GSDML format to integrate the EKS in a PROFINET system environment:

GSDML-Vx.x-EUCHNER-EKS_xxxxxx-JJJJMMTT.xml

The GSD file is available in the Internet for download free of charge at www.EUCHNER.de or on request, order no. 109539. The archive with the GSD files also includes the image file eucoeks.bmp for depicting the Electronic-Key adapter in the configuration software.

Prior to commissioning, the GSD file must be imported into the configuration software for the control system (see control system manual).
